

The most comprehensive & diverse selection of

Band Heaters

for the Plastics Processing Industry

Tempco's 38 years of supporting the plastics industry gives us the engineering and manufacturing power to supply you with a complete family of band heaters for your plastics processing equipment.

Mi-Plus® Band Heaters

Mineral Insulated with High Temperature & High Watt-Density Capabilities

Duraband® Mica Band Heaters

Most Economical, Versatile & Commonly Used Band Heater

Cast-In Band Heaters
Aluminum & Bronze Alloys
for Extrusion Processes

Maxiband® Heaters

Rugged & Contamination-Proof Tubular Heater in an Aluminum Channel for Excellent Heat Transfer

Ceramic Band Heaters

Fully Flexible Ceramic Fiber Insulated Heater Conserves Electrical Energy

Tubular Nozzle Band Heaters

Contamination-Proof Construction Designed to Perform Under Adverse Conditions

Team up with us today & put our expertise to work for you.

TEMPCO Electric Heater Corporation
— An ISO 9001 Certified Company —
